DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114.

Applicant's submission filed on August 9, 2005 has been entered. The previous rejection is withdrawn pursuant to Applicant's August 9, 2005 Amendment.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 20 and 25-35 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter that was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The original specification does not disclose "a server function of managing a status of at least one consumable used upon printing in a printing device" as recited from claim 25.

Also, from claim 25, no "receiving unit" is clearly defined from the original specification. Fig. 107 and the associated descriptive portion of the specification does not clarify what the receiving units are.

Further, from claim 25, no "storage unit that records information on a customer's purchase of merchandise provided by a consumable trader, the purchase being based on the calculated service point" is present from the original specification.

Similar deficiencies occur in claims 28 and 32.

As is, the claim language is not clear as to its meets and bounds.

Applicant must particularly point out where in the original descriptive portion of the specification and associated drawing figures where support for such is found.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 20 and 25-35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 20, line 2, "function of managing a status" is not clear syntax.

Claim 28, line 2, "function of managing a status" is not clear syntax.

Claim 32, line 2, "function of managing a status" is not clear syntax.
